

# STRATEGOS *Technical Workshop*

## *Innovative Technological Solutions: Cyber Security, Security and Safety*

9.30-12.30, January 29<sup>th</sup>, 2020, Aula DIME MIG, via Opera Pia 15, Genova, Italy  
POC: Ing.Massimo Romairone, Thales Group, massimo.romairone@thalesgroup.com

*The Workshop addresses the Security Challenges by proposing Innovative Solutions based on new Technologies. The day is dedicate to Safety and Security within Installations and Transportations Systems with special focus on Cyber Security Threats proposed by live demonstrations*

Joint Cooperation

THALES

### Workshop Description:

The necessity to protect **Complex Systems, Installations** such as **Airports** or **Transportation Systems** such as street cars and urban rails solutions provides major challenges today. In this sector it is crucial to consider both **Safety & Security** and to operate on a **Common Cyberphysical Layer**.

The workshop allows to address these issues by proposing **Cases** and **Live Demonstrations** as well as **Innovative Technological Solutions** able to deal with these challenges.

In particular the new technologies and architectures are proposed for cases on **Security** and **Signals** with special attention on their potential respect **Predictive Analysis**

**Cyber Security** and related threats are presented by **Practical Examples** and **Demonstrations** as well as with Technical Details how to deal with these issues.

*Free Access for Industries, Professionals and STRATEGOS Classes*
